WHAT OUR CUSTOMERS ARE SAYING

"Highly recommended for a water softener system. Mike is top notch, cares about what he's doing and is honest. He will go the extra mile to make sure you are happy with the system. It's hard to beat the price, Mike saved us about \$3000 compared to another softener company" **Jon M. ~ Yelp.com**

VERY ATTENTIVE TO DETAIL. Michael performed a very professional installation of our osmosis water treatment system. Michael left our kitchen neat, cleaner than he found it. Other contractors always left the place a mess. He placed the equipment so that it was not in the way. Now we have clean, delicious, fresh drinking water in our home!!! Earlier we had a water softener installed by another company. **HUGE MISTAKE!** Not only did Michael fix their mistakes, he cleaned up their mess as well. We would recommend Arisa Water to anyone who is looking to have a hassle free experience, great customer service and compared to the other companies we researched, the cost was significantly less. **Brant & Tatyana K ~ BBB.org**
